

AUTHOR GUIDELINES

Malang Neurology Journal (MNJ) is a continuously published twice a year scientific journal which is using review by peer group system. MNJ accepts original research article, review, case report, and readers' letters related to neurology.

WRITING RULES:

Research article

The research article consists of:

- Title: specific and effective, no more than 20 words in Bahasa Indonesia and 20 words in English.
- Author's identity: written fully. Author's name (without degree), institution, address, and email is included. For the sake of correspondence, the author's email is written fully and clearly.
- Abstract: it is written in Bahasa Indonesia and English, in a paragraph which consists of 200 words maximum. Abstract is written sequentially from Introduction, background, and objective, methods, results, discussion, besides conclusion is written vividly, intact, and complete. The key words must be included on the same page as abstract. It consists of 3-5 words which are chosen carefully so that reflects the concept of article.
- Introduction: it consists of background, problem of the study, and objective of the study.
- Methods: it discusses the research design, data collection, data source such as the population and sample, and data analysis. It is written in sentences, not in sequences using points.
- Results: it contains the data and information that has been collected. The finding systematically must be supported by charts, tables, or informative illustrations.
- Discussion: it shows further explanation about the finding. Compare the finding with another research's finding and do not repeat what has been written in finding.
- Conclusion
- References: written according to **Vancouver**, numbered in accordance with the order of references in the research and in accordance with the sequence number in the bibliography. The number is written after dot "." in superscript.
- Clinical research with human as the subjects must be approved by the research ethics committee.

Review

It is review from various articles in journals or books on the development of cutting edge natural medicine.

The article consists of:

- Title
- Writer's identity
- Abstract: written in Bahasa Indonesia and English, in a paragraph and consists of 200 words maximum. It is vividly, intact, and completely describe the essence of the entire research's contents. The keywords is included on the same page as abstract, consists of 3-5 words which is chosen carefully so that reflects the concept of article.
- Introduction
- Contents
- Conclusion
- References

Case report

Containing article about clinical cases related with the use of natural medicine and good for dissemination among other colleagues. The case report consists of the title, author's identity, abstract, introduction, contents and discussion.

Letters to editor

It is the communication tool between the readers and the editorial team and also to other readers. The letter contains comments, or opinions about the contents of the previous MNJ or suggestions for subsequent publication.

GENERAL PRINCIPLES

Articles which are submitted should have never been published previously. To avoid the plagiarism, MNJ doesn't accept the article which is also sent to another magazine to be published.

All of articles which are sent to MNJ will be edited by experts in disciplines related (peer-review) and editorial team. Authors may be required to revise their manuscripts for reasons of any aspect. Manuscripts with excessive errors in any aspect may be returned to authors for retyping or may be rejected. The manuscript which is published must be approved by an ethics committee or consider the ethical aspects of research that can be accounted for. Moreover for the clinical research with human as the subjects, the certificate of approval from the ethics committee must be attached.

Articles must be typed with single spacing on paper 210 x 297 mm (paper A4) with margin 2,5 cm. Maximum number of pages 15.

WRITINGS RULES

- Title in Bahasa Indonesia: Calibri 12, Bold & center, single spacing
- Title in English: Calibri 12, Bold, Italic & center, single spacing
- Author's identity: Calibri 11, Italic, single spacing
- Abstract in Bahasa Indonesia: Calibri 11, single spacing
- Abstract in English: Calibri 11, Italic, single spacing
- Subtitle: Calibri 11, Bold
- Contents: Calibri 11, 1,5 spacing
- Quotation: Calibri 11, Italic
- References: Calibri 11, single spacing

Tables

The tables must be typed with single spacing, and font 10 or customized. Tables' numbers are sorted in order of mention in the text (written numbers do not use punctuation dot "."). Tables were given a title and subtitle briefly. Tables' title is written in Calibri 11, bold (first sentence must be capital letter) with single spacing. Single spacing between tables' title and the tables. Double spacing between sentences in the last paragraph and tables's title and double spacing between the last paragraph and the next paragraph. The figures must be professionally produced and photographed, or in the form of a CD. Send a sharp photo prints, on gloss paper with a size of 127 x 173 mm, 2013 x 254 mm maximum. Each figure must have a label on the back and contains a number of figures, the authors' name, and sign instructions "top" figures. Figures' title is placed below the figures. The figures must be numbered in accordance with the appearance in the text. Moreover the graphs and diagrams are considered as a

figures. Background of the graphs and diagrams are plain. The graph is displayed in 2D form. If there is a caption, written after the figures' title.

Conclusion

The conclusion is written in accordance with point 1,2,3, etc.

References

References is written according to **Vancouver**, be numbered in accordance with the overall appearance of the text, not in alphabetical order. List all of the authors when they're not more than six. If more than six authors, write the name of the first six authors followed by et al.

Examples of how to write a bibliography:

Journal article

Standard journal article

Vega KJ, Pina I, Krevsky B. Heart transplantation is associated with an increase risk for pancreatobiliary disease. *Ann Intern Med*; 1996. Jun;124(11):980-3

Other example: When the journal sort the pages in a volume, hence the month and issue number aren't necessary.

Vega KJ, Pina I, Krevsky B Heart transplantation is associated with an increase risk for pancreatobiliary disease. *Ann Intern Med*; 1996.124:980-3

More than six authors, the seventh author and so on are not included, and they're written with et al.

Parkin DM, Clayton D, Black RJ, Masuyer E, Freidi HP, Ivanov E, et al. Childhood leukimia in Europe after Chernobyl: 5 year follow up. *Br.J Cancer*; 1996.73:1006-12

Organization as the author

The Cardiac Society of Australia and New Zealand. Clinical exercise stress testing. Safety and performance guidelines. *Med J Aust*; 1996.164:282-4

Without the author's name

Cancer in South Africa [editorial]. *S Afr Med J*;1994. 84:154. The article is not in English
Ryder Te, Haukeland EA, Solhaug JH. Bilateral infrapatellar seneruptur hos tidlifere frisk kvinne. *Tidsskr Nor Laegeforen*; 1996.116:41-2

Volume with suplement

Shen HM, Zhang QF. Risk assessment of nickel carcinogenicity and occupational lung cancer. *Environ Health Perspect*; 1994.102 suppl 1.275-82

Issue with suplement

Payne DK, Sullivan MD, Massie MJ. Women's psychological reactions to breast cancer. *Semin Oncol*; 1996. 23(1 suppl 2);89-97

Volume with section

Ozben T, Nacitarhan S, Tuncer N. Plasma and urine sialic acid in non-insulin dependent diabetes melitus. *Ann Clin Biotherm*; 1995. 32(Pt3):303-6

Issue with section

Poole GH, Mills SM. One Hundred consecutive cases of flap lacerations of the leg in ageing petients. *NZ Med J*; 1990.107(959 Pt 1):377-8

Issue without volume

Turan I, Wredmark T, Fellander-Tsai L. Arthroscopic ankle arthrodesis in rheumatoid arthritis. *Clin Orthop*; 1995. (320):110-4

Book and another Monographs

Individual authors

Ringsven MK, Bond D. Gerontology and leadership skills for nurses. Second edition. Alabny (NY): Delmar Publishers;1996

Murray PR, Rosenthal KS, Kobayashi GS, Pfaller MA, Medical microbiology, 4th ed.St.Louis: Mosby; 2002

Editor as the author

Normann IJ Redfern SJ, editor. Mental health care for elderly people. New York: Churchill Livingstone; 1996.

Organization as the author

Institute for Medicine (US). Looking at the future of the Medicaid program. Washington: The Institute; 1992.

Chapter in a book

P. Freddy Wilmana. Anti-virus dan interferon, In: Sulistia G. Ganiswarna editor. Pharmacology and therapeutics. Faculty of Medicine-Universitas Indonesia. Jakarta; 1995. h. 616-21 Meltzer PS, Kallioniemi A. Trent JM, Chromosome alterations in human solid tumors, In : Vogelstein B, Kinzler KW, editors. The genetic basis of human cancer. New York: McGraw-Hill; 2002.p.93-113

Conference proceedings

Kimura J. Shibasaki H, editor. Recent advantages in clinical neurophysiology. Proceedings of the 10 th International Congress of EMG and clinical Neurophysiology; 1995 Oct 15-19; Kyoto, Japan. Amsterdam: Elsevier;1996

Paper in conference

Bengtsson S, Solheim BG, Enforcement of data protection, privacy and security in medical information. In: Lun KC, Degoulet P, Piemme TE, Rienhoff O, editor. MEDINFO 92. Proceeding of the 7 th World Congress in Medical Informatics; 1992 Sep 6-10; Geneva, Switzerland. Amsterdam: North-Holland;1992. p. 1561-5

Memoir

It is published by the funding agency or sponsorship:

Smith P, Golladay K. Payment for durable medical equipment billed during skilled nursing facility stays. Final report. Dallas (TX): Dept. Of Health and Human Services (US), Office of evaluation and inspection; 1994 Oct. report No.: HHSIGOEI69200860

Dissertation
